Susan:

I talked to Mickey and he indicated that they got the money to begin the emergency action (VB601/617/Sampling and Disposals of waste piles until money is gone). The issue now is that they got a protest from a creditor that indicated that they could do the emergency action cheaper and that they are giving them until COB Wednesday (6/25/14) to submit a proposal for evaluation. Therefore, the exact start date is not yet confirmed. Attached you will find the proposals for the work to be conducted by IKON. One for the emergency action and the second for the entire site cleanup.

I think we are close to something actually happening.

Thanks

Gary Moore

Subject: Revised Bids for Waste Disposal

David,

Here are revised bids based on the assumption that the waste in roll off box 601 is non hazardous plant trash waste. Visual observations of the waste in the box indicates that the waste is likely mostly plant trash with oil in the box. We are assuming, since we cant sample it, that it is nonhazardous. The bid for the remainder of the waste does not include the two roll offs that we will be disposing of in the near future.

Please call me if you have any questions.

Thank you,

[Greg Blomquist](#)
